PROFESSIONAL SUMMARY

Computer Science graduate with experience in functional testing, UI validation, technical documentation, and software development. Skilled in Java, Python, SQL, Figma, and Power BI, with strong analytical, communication, and leadership skills developed through both technical and management experience.

EDUCATION

Bachelor of Science, Computer Science | American University of Science & Technology (AUST), Beirut, Lebanon 2021 – 2025

Relevant Coursework: Software Engineering, Networking, Database Management, Web Development, Data Structures and Algorithms, Game Development, Practical Approach to Data Science.

WORK EXPERIENCE

Functional & QA Intern Jun 2026 – Present
[ITB \(An ITG Company\)](#) | Beirut, Lebanon

- Test 10+ POS and Backoffice features, identifying functional and UI issues and validating system behavior against business requirements and designs.
- Design and refine user flows, process diagrams, and UI/UX improvements for POS and Backoffice using Figma and FigJam, improving workflow clarity and usability.
- Enhance and redesign UI elements to make POS and Backoffice interfaces more user-friendly, consistent, and aligned with functional requirements.
- Translate testing findings into actionable Confluence documentation and bug reports, defining expected behavior, validation rules, and acceptance criteria for development and QA teams.

Branch Manager Oct 2023 – Present
Birkenstock, ABC Achrafieh | Beirut, Lebanon

- Lead and coach a 5-member sales team, driving KPI performance and contributing to the branch ranking among the top performers during peak seasons.
- Manage daily operations, reporting, and workflow improvements to strengthen branch efficiency and customer experience.

Sales Representative Aug 2022 – Oct 2023
Birkenstock, ABC Achrafieh | Beirut, Lebanon

- Consistently exceeded monthly sales targets through a consultative sales approach, contributing to customer satisfaction and retention.
- Supported new-hire onboarding and in-store initiatives, improving team readiness and execution.

IT Support Assistant Jul 2021 – Oct 2021
H Home furniture | Beirut, Lebanon

- Diagnosed hardware/software issues and configured PCs, switches, and routers to support reliable day-to-day IT operations.

PROJECTS

YallaService - Web Platform for Service Marketplace (Senior Project) 2025

- Designed and implemented 3 core workflows—registration, service listing, and search—using HTML, CSS, JavaScript, SQL, Git, and Agile development practices.

Blood Donation Database (Database Project) 2024

- Designed a relational database normalized through 3NF and built SQL queries for structured donor and patient record management.

TECHNICAL SKILLS

- **Programming & Development:** Java, Python, C++, SQL, HTML, CSS, JavaScript
- **Tools & Platforms:** Visual Studio, IntelliJ IDEA, NetBeans, Git/GitHub, Power BI, Figma, Atlassian Confluence
- **Systems & Troubleshooting:** Windows, macOS, hardware/software troubleshooting, IT Essentials
- **Soft Skills:** Analytical Problem Solving, Attention to Detail, Cross-Functional Collaboration, Problem-Solving
- **Languages:** English, French, Arabic, Spanish (Elementary)
